

BEGIN

The Society of Hospital Medicine has partnered with Hilton and American Express to provide hotel rooms to frontline medical professionals in the U.S. during the COVID-19 pandemic. Our partnership with Hilton extends to you as a member of the Society of Hospital Medicine and our extended network, so all members of the frontline health care team can have a safe and welcoming place to stay as you support those impacted by COVID-19.

Individual members now have access to available rooms at Hilton properties at no cost to you through our association website. [Through this booking portal](#) you can book up to seven consecutive nights per reservation at no charge, apart from incidentals, up to four weeks in advance from the time of booking.

Please note that, like our members, Hilton and its Team Members are adjusting to this rapidly changing and often difficult situation. To ensure your safety, Hilton's high cleaning and hygiene protocol standards have been further enhanced and are now even more rigorous. In some instances, additional steps may be taken in order to protect you, other guests and Hilton's team members, such as refraining from performing daily housekeeping during your stay.

Additionally, you will find that many hotels have had to change their policies in public spaces, including temporarily suspending restaurant services, on-property gyms and other similar amenities. While there may be alternative options in some locations, including grab-and-go food, please be sure to confirm directly with the property.

The Society of Hospital Medicine sends our deepest gratitude to all of you bravely caring for patients during this unprecedented public health crisis. We admire you and want to support you any way we can. We hope this partnership with Hilton and American Express provides some peace of mind, hospitality and the chance to recharge as you continue on your mission.

Thank you!
